

Organise Today / Strike Back Tomorrow

Republican Sinn Féin is urging all who are being affected by cutbacks, unjust charges, unemployment, emigration, drug abuse, depression and political isolation to fight back against the spineless capitalist system of partition which is at the core of the problem facing many thousands of people throughout Ireland.

Our society is being torn apart at the whim of the financial elite and the imperialists of Britain and the EU/ECB/IMF. They are using our beloved Ireland as a monopoly for the rich and the elite. This is all set against the backdrop of widespread political disenchantment, poverty, massive unemployment, mass emigration, occupation and the giveaway of our natural resources. These are very real issues despite the nonsense portrayed in the media that would suggest all is well and grand in Ireland.

*“We declare the right of the Irish people to the ownership of Ireland”
~ 1916 Proclamation of Independence ~*

*All action taken needs to be disciplined, revolutionary and uncompromising.
History teaches us imperialism will be moved by no other means.*

The political class that claims to represent us needs to be challenged. They do not represent us. They represent faceless banks, private multinational corporations and the failed system of British politics in Ireland. To make matters worse we see 26-County politicians all the time trying to normalise and consolidate the British occupation in the six-north eastern counties of Ireland through a deliberate policy of normalisation and censorship.

Ireland is coming under sustained attack from many quarters. No corner of our nation is untouched as Anglicisation is reinforced every passing day. This leads to the downgrading of Gaelic culture, language and identity. Have we grown so ignorant to accept this fate at the hands of our enemies? **Republican Sinn Féin** have not and never will.

Republican Sinn Féin will never tolerate the occupation of Ireland and we will never sell-out to the new imperialism of the EU/ECB/IMF. **Join RSF today** and organise the fight back for Irish sovereignty and independence.

Be Part of a Proud Tradition

Republican Sinn Féin is part of a long and proud revolutionary tradition which has its roots in the formation of the United Irishmen in the 1790s. We rightly claim direct and unbroken continuity with that tradition. Many have sacrificed their lives for the traditional principles of Republicanism and history will teach you we have never betrayed our patriot dead and never will.

“We have declared for an Irish Republic and we will not live under any other law.” General Liam Lynch.

If you agree with the message *Republican Sinn Féin* has then why not visit our website to learn more (rsf.ie). Factually speaking we are the only political organisation in Ireland that actually has a long term viable alternative to the failed system of partition. Don't take our word for it. Educate yourself and weigh up all the arguments for yourself. We do not fear dialogue unlike the imperialists who impose media censorship on us. By their acts of repression they foolishly expose their own fears. Essentially they fear the *Éire Nua programme for a New Democratic Federal All-Ireland Socialist Republic*.

Éire Nua would create in Ireland a federal system of governance based on the four traditional provinces of Ireland. Each province will have its own democratically elected parliament. The Provincial Parliaments will be broken down into Regional Boards and District Councils; this is to ensure a system of participatory democracy based on proportional representation. This is opposed to the failure of partition and the representative system where those we elect have proven themselves not fit represent us. *Éire Nua* will replace the intrigue with transparency and give real power to the Irish people in their respective provinces and regions.

Éire Nua deserves the attention of all Irish citizens. It has the potential to make the Republic proclaimed during Easter Week 1916 a living reality for all the Irish people while expelling the malign influence of partition. It will be a new start for the Irish nation ending once and for all over 800 years of colonial oppression.
